STREETTASKER COORDINATORS

Local Tasker and Coordinator Guide

Read this before you take the coordinator test. The test questions come only from this guide.

1. What is a Local Tasker?

Local Taskers are skilled workers who may not have easy access to smartphones, reliable internet or online marketplaces. Examples are a tailor, cleaner, hairdresser, mechanic, caterer or handyman. StreetTasker connects them with customers through a local coordinator network. Their work stays local and their opportunities grow.

You are the coordinator. A Local Tasker does not need to use the website or a smartphone. You, the coordinator, are the person who meets them, registers them, speaks to them by phone and keeps their jobs on track.

> **Why it matters.** Many skilled workers are able to give excellent service but do not have the technology to join an online marketplace. Local Taskers removes that barrier by using people and simple communication. Local Taskers receive the agreed payment for their work promptly and transparently, without arbitrary deductions or delays.

2. How Local Taskers works: four steps

1. We find local talent Coordinators meet skilled workers directly in their communities, workshops and markets.	**2. We create their profile** The coordinator registers their skills, experience, location and availability on StreetTasker.
3. You book them Customers find their profiles, check their verified capabilities and request a booking.	**4. We connect them** A coordinator phones the Local Tasker to confirm the job details and dispatch them.

Because bookings are coordinated by phone, the coordinator makes sure the Local Tasker can confirm the job before it goes ahead.

3. What a coordinator does

- **Meets and registers.** You meet every Local Tasker in person at least once, add a Local Tasker who has agreed to work through you, and verify them (see section 4). The profile starts as a draft: nothing is shown to customers until you publish it.
- **Collects their details.** You ask the Local Tasker for the details in section 4 and fill them in on the Local Tasker details form at the end of this guide.
- **Builds the profile.** Skills (up to 20), areas served, availability, services with the rate the Local Tasker agreed, and up to 8 photos of their work. The first photo becomes the cover photo.
- **Sets up the payout account.** A verified bank account, so completed bookings can be paid out.
- **Publishes.** You preview how customers will see the person, then publish. You can unpublish at any time. If you change a service or a rate after publishing, press Update public listing so customers see the change.
- **Runs the booking by phone.** You call the Local Tasker, record their answer and quote, send updates to the customer, record steps on the day, and report problems.
- **Keeps a plan.** Your plan sets how many Local Taskers you can have at once (see section 11).
- **Earns a share.** You earn from the work your Local Taskers do (see section 6).

4. Details you collect from a Local Tasker

Tell the Local Tasker every item below **before you ask for it**. Explain that you will ask for it and what it is used for. Do not ask for anything that is not on this list. Write the answers on the Local Tasker details form (last page) and then enter them on the site.

> **Meet and verify.** You must meet every Local Tasker in person at least once and verify them. You verify a Local Tasker by collecting their NIN and verifying their face.

> **Language. This is essential.** Make sure you fully understand the language the Local Tasker speaks. If you do not understand their language, do not recruit that Local Tasker.

Detail	What you ask for
Full name	Their full name. It is private and is seen only by you and StreetTasker administrators.
Public name	The name customers will see once the profile is published. A first name and an initial is fine.
Phone number	The number you reach them on. It is private.
NIN	Their National Identification Number. You collect it and use it to verify them (see section 12).
Guarantor's name and phone number	The name and the phone number of their guarantor.
Skills, areas, availability	Their skills (up to 20), the areas they serve and when they are available.
Services and rates	Each service they offer and the rate they agreed.
Photos	Up to 8 photos of their work, only if they agreed to share them.
Bank account	Their bank and 10-digit account number for payouts. The account name must match their registered name and the account must be theirs alone.
How they agreed	In person, by phone call or in writing, with an optional reference such as a form number.

> **The rule.** Never ask for a detail the Local Tasker has not been told about first. Read the list to them, answer their questions, and only then fill in the form with them.

5. What you tell a Local Tasker about pay

Before a Local Tasker agrees to work through you, explain these things clearly:

- Their payment is **released within 24 hours**.
- After **4 weeks on the website** they get **same-day payment**. The 4 weeks start on the day their profile is published.
- The service charge is **12%**, so they get **88%** of the price of the job.
- Always tell them how much they will get. For example, if the work is ₦10,000, they get ₦8,800.
- Tell them to keep the 12% in mind when they state their price.

Tell Local Taskers only about the 12% service charge and the 88% they receive. Do not tell them how the 12% is shared (see section 6). Do not promise a different time, and do not promise money outside StreetTasker. Tick the boxes in part F of the form when you have told them.

6. How you earn

Coordinators earn from the work their Local Taskers do. For each job, the money is shared like this:

Share	Who receives it
5%	of the Local Tasker’s earning goes to you, the coordinator.
7%	of the Local Tasker’s earning goes to the website, StreetTasker.

- **Your wallet.** Your 5% shows in your wallet on the coordinator page.
- **Withdrawing.** You can withdraw it to your bank within 24 hours.
- **Same-day payment.** After you have been 4 weeks on the website, you can receive payment on the same day.
- **Keep the split to yourself.** Do not tell Local Taskers about the 5% and 7%. They are told only about the 12% service charge and the 88% they receive.
- Your earnings are paid by StreetTasker. You never collect money from a customer or a Local Tasker yourself.

7. Agreement: nothing is done without the Local Tasker saying yes

Assisted mode means you are acting on the Local Tasker’s behalf, so every step needs their agreement, and every change you make is permanently logged.

- **Profile.** Before you create a profile you record how the person agreed: in person, by phone call or in writing, with an optional reference such as a form number. You must confirm they agreed to have the profile created and to be contacted through you. The record is kept permanently and cannot be edited.
- **Photos.** Use only photos the person has agreed to share. Record their agreement to have their photos used on their StreetTasker profile.
- **Publishing.** Publish only after you have shown or read the preview to the person and they agreed to publish.
- **Bank account.** Record that the Local Tasker agreed that this account may receive their booking payouts, and that they told you the account belongs to them with no one else involved.
- **Privacy.** The phone number and full name stay private to you and StreetTasker administrators. Customers only see the public name (a first name and an initial is fine), and only after you publish. Profiles are shown with the labels Local Tasker and Phone Assisted.

8. Running a booking by phone

- **Record the call.** Note who you spoke to, the number you called, when, and what they said: they can do the job, they cannot or will not, or there was no answer (try again).
- **The price is theirs.** The quote contains the Local Tasker’s own price for their time and skill. You cannot change it. A new price needs a new call. Read the price back to them and confirm they agreed to it.
- **Other costs.** Transport and materials can be added, and another agreed cost of at least 100 naira and no more than the service fee. Extra costs after the job starts are only asked for after the Local Tasker confirms them to you. The customer pays or declines in their Job Room, and an extra cost never changes the agreed price.
- **Lowering a price.** A price reduction is not edited directly: it opens a problem report, payments on the job are paused, and StreetTasker support decides and records any refund.
- **Recording steps.** Recording a step on the day only writes it down. It never changes a payment and never marks the job as done. The time can be up to 3 days back.
- **Cancelling.** You can cancel only when nothing has been paid. Cancelling never moves money and cannot be undone. A problem report is decided by StreetTasker support, and payments on that booking are paused until it is decided.

9. Payments and the release code

- **Payments are handled by StreetTasker.** A coordinator can read the payment but cannot change it, and cannot move money.
- **Payouts go to one place.** Payouts for completed bookings go only to the account saved on the profile. The bank checks the account name and it must match the registered name; you cannot override this. The full account number is never stored, only the last four digits and a payment provider reference.
- A different account needs a new check with the bank and a new recorded agreement from the Local Tasker. Every change is logged against your coordinator account.
- **The release code.** The customer gets a 6-digit release code in their Job Room once they are happy with the work. Never ask for it before the job is done. A wrong code uses one of three attempts; after three wrong codes the booking is locked and only a StreetTasker administrator can unlock it. The right code releases the payment once, and it cannot be undone.

> **Money rule.** Recording, updating, reporting and cancelling never move money. If something about a payment looks wrong, report a problem so StreetTasker support can decide.

10. Messages with customers

- Do not share phone numbers, WhatsApp links, email addresses or other off-platform contact details in a customer message. A message that looks like it contains contact information is not sent.
- Use an internal note to keep contact details for yourself.
- A quick update (On my way, I have arrived, The work is finished, or your own short text of 3 to 300 characters with no phone numbers, emails or links) is only a message. It does not change the booking step, a payment or the release code.
- To propose a new time, agree it with the Local Tasker first. The customer accepts or declines it. The job keeps its current time until they accept.

11. Your plan and places

- Your plan sets how many Local Taskers you can have at the same time. Only Local Taskers currently assigned to you are counted. Ending an assignment frees a place.
- You start on a free starting plan. Upgrades are bought one step at a time and a step cannot be skipped. You pay online through Paystack and your plan is raised only after Paystack confirms the payment.
- An upgrade is permanent and the payment is not refunded.
- If you have more active Local Taskers than your plan allows, everyone you have stays, but you cannot add anyone new until a place is free or you upgrade.

12. Identity checks

- Meet the Local Tasker in person at least once. Verify them by collecting their NIN and verifying their face. Tell them you will ask for it, and why, before you ask.
- A Local Tasker’s profile shows an identity check status: Verified, In progress or Not verified. You can start an identity check from their profile (Start identity check), with the Local Tasker in front of you.
- Never put ID numbers, including the NIN, or bank account numbers in notes, references or messages. Keep the paper form private.

13. Conduct: the short list

- **Do:** meet and verify the Local Tasker, make sure you fully understand their language, get their agreement first, tell the Local Tasker what you will ask for before you ask, tell them how much they will get, tell the truth about prices and what they said, keep their full name and phone number private, and report problems.

- **Do not:** change a Local Tasker’s price yourself, ask for the release code before the job is done, move or promise money outside StreetTasker, share contact details in customer messages, recruit a Local Tasker whose language you do not understand, or publish a profile the person has not seen or heard.
- Treat every Local Tasker fairly: equal pay for equal work, paid promptly and transparently, without arbitrary deductions or delays.
- Ask a StreetTasker administrator when you are not sure.

> **Next step.** When you are ready, open the coordinator test link from your approval email. The pass mark is 80 percent. You can take the test 3 times a day.

Local Tasker details form

You, the coordinator, fill this in with the Local Tasker. **Before you ask for any item, tell the Local Tasker you will ask for it.** Print one form for each Local Tasker.

Private. Keep this form safe. Do not share it, photograph it or put its numbers in notes, references or messages.

A. Who they are

Full name (private)	Public name (customers see this)

Phone number (private)	Their main skills (up to 20)

Areas they serve

When they are available

B. Identity check

NIN (National Identification Number)

☐ I met them in person and verified their face

☐ Identity check started with the NIN

C. Guarantor

Guarantor's name	Guarantor's phone number

D. Payout account

Bank	Account number (10 digits)

☐ The account name matches the name above and the account belongs to them alone

E. Their agreement

☐ They agreed to have a profile created and to be contacted through me

☐ How they agreed: ☐ in person ☐ by phone call ☐ in writing

☐ They agreed that their photos can be used on their StreetTasker profile

☐ They agreed that this bank account can receive their booking payouts

Reference (optional): a form number or where the signed paper is kept

F. I told the Local Tasker

☐ I fully understand the language they speak

☐ Every item on this form, before I asked for it

☐ Their payment is released within 24 hours

☐ The service charge is 12%, so they get 88% (for example ₦10,000 pays ₦8,800)

☐ After 4 weeks on the website they get same-day payment

Local Tasker's signature or mark (if they agree in writing)

Coordinator's name and date
